

Team : TeamRANKS

Iteration2 Features	
(Faculty) Login and register	Yes
(Student) Login and register	Yes - Technical electives and programming language experience are entered as text.
Restrict the access to content pages when the user is not logged in?	Yes
Restrict the access to faculty pages /routes when for student users?	No
(Faculty) Create research positions	Yes -
(Faculty) View the list of the students who applied for their positions	Yes
(Student) View the open research positions. The information of the position (title, description, start/end dates, etc.) should be displayed.	Yes - Doesn't display the research topics of the positions.
(Student) Apply for research positions.	Yes
Overall design of the application	Good
Is the application easy to use? Are the forms easy to fill in?	Most forms are easy to fill in , except the student registration form. In the registration form, the technical electives and programming languages are entered as text. Similar to the research fields, you can display programming languages and technical courses as selection list/drop boxes and have the user select them with clicks.
Additional Features	
(Faculty) View the qualifications of each applicant	Yes
(Student/Faculty) Edit profile	Yes

Instructor's comments:	Well done! See my comments above.
TA Comments (demo):	Can create new research positions + can view applicants for a specific position - students can view their applications + withdraw from positions
Iteration2 Score (code only)	100
